### Description

It is elegant and classy: a place where you can freely be yourself and let loose as you please without the constraints of space to stand in your way. An amazing spot when it comes to breathtaking views of the Mediterranean and the Calpe Rock, as well as within walking distance to the sea, golf, restaurants, supermarkets and next town. An excellent escape and refuge when you need some time to yourself and equally as great when having guests over for drinks, a meal or a sleepover. And what family wouldn't appreciate having such a home with spectacular finishes and perfect decor!

In what might appear as a long stretched space is the living room. Comfortable, homely and bright, it has been set up to depict nature in shades of green and the earth through the furniture in a blend which is a great aesthetic and has the effect of making one feel at ease. At the other end is the dining room which appears like it is in a whole other room but with the way this room has been constructed, it is a distinct feature of the property and what makes it all the more special. Through the living room are glass sliding doors which open out to a glazed terrace which offers protection in the winter.

The kitchen is modern, spacious and has been balanced out to incorporate all the fixtures, fittings and appliances for a harmonious unit. And then you have the three bedrooms which are going to make you wish you could get to spend the whole day in bed. Each is uniquely different projecting various characters and outfitted in the various ways possible from the avid reader to the student and in between where there is just someone looking to have a good rest.

Access to the home is through an elevator and a secure door. There is a garage too among other facilities to be enjoyed. Give us a call for more details.
