Description

New build apartments for sale in Calpe directly at La Fossa beach with sea views, luxury finishes, pool, gym, and delivery in 2027 on the Costa Blanca North. Directly on the La Fossa beach in Calpe, an exclusive new build project is rising with 72 luxury apartments for sale in Calpe. Construction has started and the delivery of the first tower is scheduled for August 2027, followed by the second tower in October 2027. A unique location on the Costa Blanca North, with sea views and the Peñón de Ifach. Description The project consists of stylish 1, 2, and 3-bedroom apartments and exclusive duplex penthouses. Thanks to the southeast orientation, large terraces, and a smart layout with cross-ventilation, the homes benefit from plenty of natural light and a pleasant indoor climate. The apartments in the first tower offer panoramic views over the Mediterranean Sea and the iconic Peñón de Ifach. From the second tower, you not only look out over the sea but also over the salt lake of Calpe, where flamingos can often be seen. All homes are finished with high-quality materials and modern techniques. The apartments are equipped with home automation, air conditioning via ducts, electric shutters, electric underfloor heating in the bathrooms, and a designer kitchen with high-quality built-in appliances. Each home also has its own parking space and storage room. During construction, it is still possible to customize the finishes of your new build apartment in Calpe through a personalization program. Additionally, the home can be fully furnished at an extra cost, with two complete interior concepts to choose from: Aktual or L-Gance. The duplex penthouses feature extra luxury amenities, including a private solarium, hydromassage jacuzzi, outdoor bar, outdoor shower, and two parking spaces.
