Description

Modern Mediterranean Villa with Sea Views and Exceptional Architectural Design
Set on a generous 1,274 m² plot, this beautifully crafted villa blends contemporary geometry with the warmth of Mediterranean materials. Horizontal concrete planes and vertical natural-stone walls give structure and elegance, while expansive terraces and large windows create a seamless connection between interior and exterior spaces. With 360 m² of refined living space across two levels, this home offers comfort, sophistication and timeless style.
The layout has been designed for both practicality and beauty. The ground floor houses the night area with three spacious ensuite bedrooms and a garage for two cars, storage and laundry rooms ensuring privacy and convenience. An internal lift provides effortless access to the upper floor, where the main living space unfolds. Here, a bright fourth ensuite bedroom sits alongside a stunning open-plan living, dining and kitchen area with a guest toilet. Floor-to-ceiling windows frame beautiful sea views and open fully to the terrace, where a pergola creates a second outdoor living room and an elegant barbecue area. Inside, the material palette combines white stucco, dry stone and subtle wooden touches for warmth and refinement. All bathrooms offer premium finishes, including recessed glass screens, large-format porcelain stoneware and top-quality fittings. The exterior is completed by generous terraces and a striking 5 × 11 m pool - an ideal place to embrace the Mediterranean lifestyle.
